

## **CIRCULATION DESK**

CD6029/CD6032 CD6039

#### **IMPORTANT!**

Assembly may require the assistance of another person.

Before you begin assembly:

**READ THE DIRECTIONS** all the way through one time. This will speed up the process and help you understand the sequence of steps.

**COUNT THE PARTS AND HARDWARE** before assembly. This ensures you have received all necessary parts before you begin.

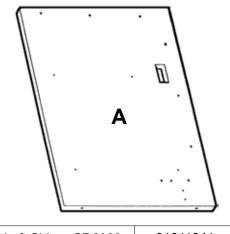

**TOOLS:** You may need a Phillips head screwdriver, a medium slotted screwdriver or a plastic mallet. To protect your new furniture from damage during assembly, it is recommended to work on a carpeted surface.

In the event any parts are missing from this package, send your name, address, telephone number, and a description of the missing part(s) to: PARTS, Box 1420, Missoula, MT 59806 or call: 1-800-769-5693 or FAX 1-800-445-5281.

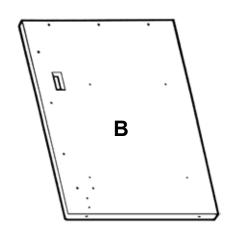

**CAUTION:** On assemblies requiring glue, make sure the unit is assembled correctly before gluing. Once this unit is assembled with glue, the manufacturer will not be responsible for damaged parts. Keep a damp cloth or sponge handy to wipe off excess glue.

To care for this furniture, simply wipe with a cloth dampened with glass cleaner containing ammonia-D.

#### **HARDWARE**

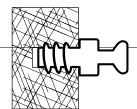

#### **Using the Rafix System:**

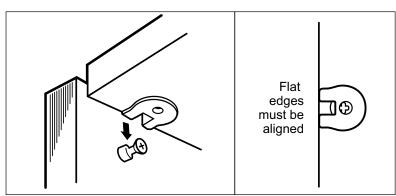

Insert the Rafix Cams into the appropriate holes. The flat edge of the cam should be facing the edge of the panel.

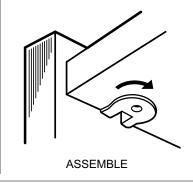

Slide Rafix Cams of the panel to be attached onto the corresponding posts.

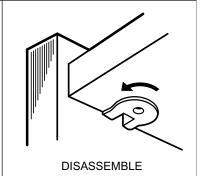

When screwing post into hole, **Do Not** over tighten. Screw post down until bottom face of post flange just touches board surface.

Using a #3 Phillips screwdriver, turn the rotating portion of the Rafix Cam a 1/2 turn clockwise to secure. *IMPORTANT!* Do not exceed 1/2 turn when tightening cams. Turn 1/2 turn counterclockwise to disassemble and remove panel.

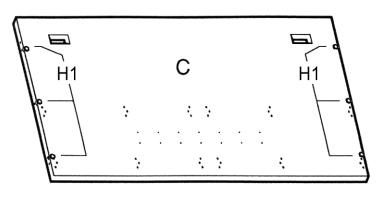

#1

Place the Top (C) onto a clean, carpeted surface with the pre-drilled holes facing up. Insert six Rafix Cams (H1) into the top with the arrows of the cams facing out.

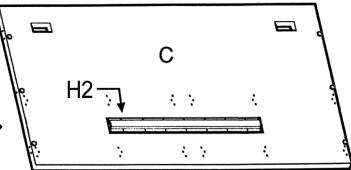

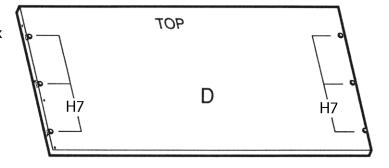

#2

Attach the Metal Brace (H2) to the Top (C) using fourteen #8 x 5/8" Panhead Screws (H3) in the pre-drilled holes as shown.

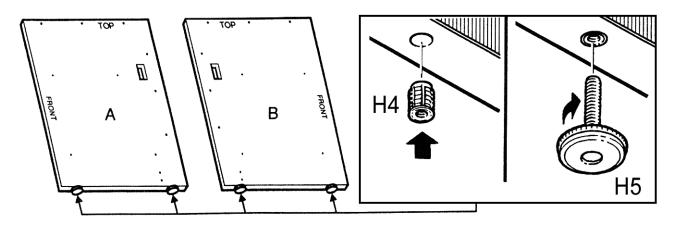

Place the Back (D) with the pre-drilled holes facing up as shown. Insert six Rafix Flush Cams (H7) into the Back with the arrows of the cams facing out.

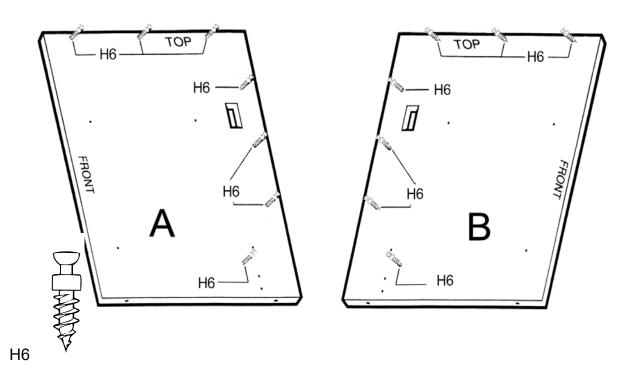

#4

Insert the Leveler Inserts (H4) into the holes in the bottom edges of Left Side (A) and Right Side (B). Using a plastic mallet, tap until flush with the surface. Screw the Levelers (H5) into the Leveler Inserts. **Adjust Levelers when the assembled unit is in place.** 

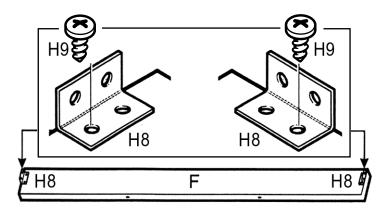

#5

Screw seven Minifix Bolts (H6) into each Side (A & B) where indicated.

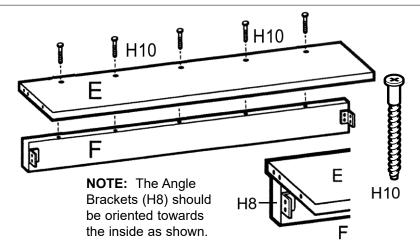

Secure an Angle Bracket (H8) to each end of the Toeboard (F) using the ½" Panhead Screws (H9).

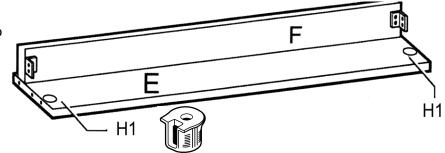

#7

Attach the Toeboard (F) to the Bottom (E) using five Confirmat Screws (H10) through the pre-drilled holes as shown.

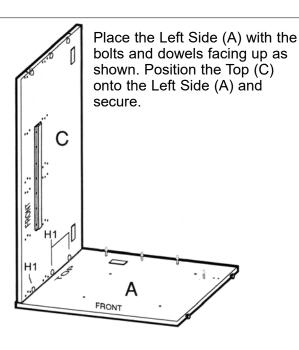

#8

Insert two Rafix Cams (H1) into the Bottom (E)

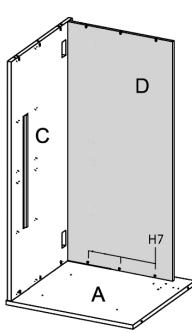

#9

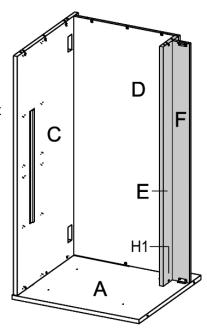

#10

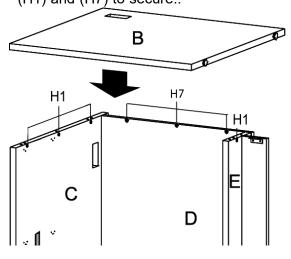

Position the Back (D) onto the Left Side (A) and and secure

Position the Bottom (E) and Toeboard (F) assembly onto the Left Side (A) and tighten cams to secure

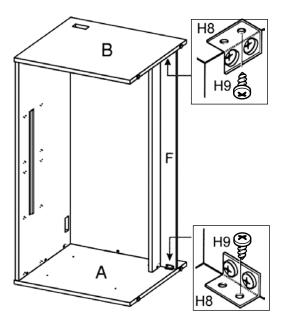

Position the bolts and dowels of the Right Side (B) onto the unit and turn the cams (H1) and (H7) to secure..

#13

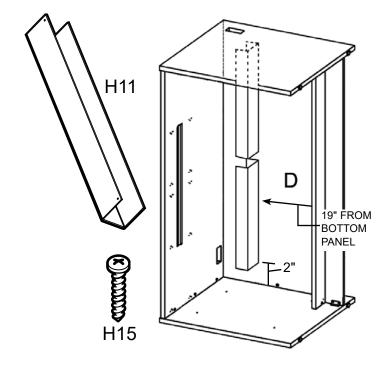

Secure the Angle Brackets (H8) of the Toeboard (F) to each Side (A & B) using ½" Panhead Screws (H9).

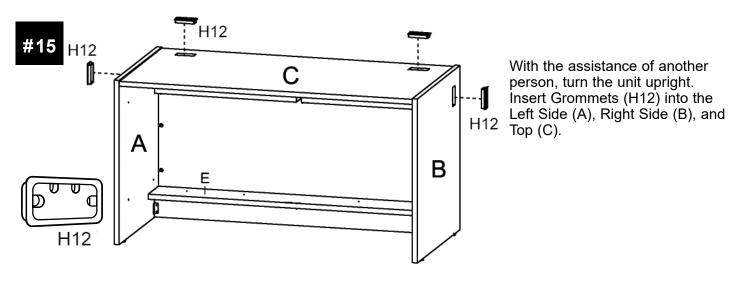

#14

Peel the paper backing from the adhesive stip on the Wire Trough (H11). Attach the Wire Trough to the Back of the unit and secure in place by driving two Panhead Screws (H15) through the predrilled holes in the Wire Trough.

**Note:** It will be difficult to remove or reposition the wire trough once the Back and Top are joined.

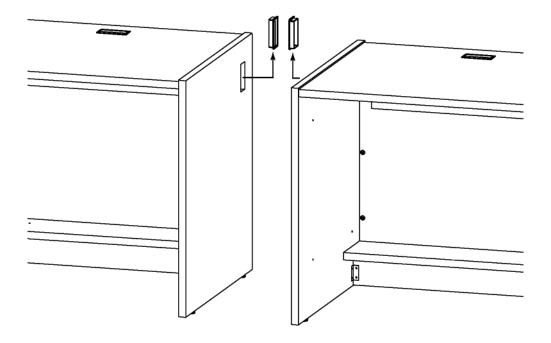

Assembly is now complete and your Glacier 60" Desk Shell is ready for use.

# ADJOINING TO OTHER WORKSTATIONS:

Remove Grommets from the panels to be connected.

Using a 13/64" bit, drill through the four pilot holes on the inside of each side panel.

Align the side panels of the units to be connected. Tap four Connector Sleeves (H13) through the holes in one side panel and into the holes of the unit to be connected. From the other side, secure the units together using four Connector Screws (H14).
