

# Recovery Cot Treatment Cot

When a recovery cot is needed - Care, Comfort and Safety need to be there also. With an Ironwood recovery cot, comfort and safety are a guarantee. Comfort comes from 4" of hospital grade foam. Peace of mind knowing that our foam meets the FAA FAR 25-853 specifications for fire resistance. Our ISO9001 engineered Naugahyde provides the safety. It is formulated level of disinfectability protecting against bacterial and fungal micro-organisms. Cots are available with a flat pad or elevated headrest.
