YOSEMITE

I R O N W O O D

Ironwood Manufacturing has been building solid, sensible furniture in the Rocky Mountain West since 1984. Our heritage and location have helped to make us a sound, competitive company. Family owned, we have built our business on an honest handshake and fair dealing. The original business was built on providing custom built furniture for schools, offices and libraries. In 2003 Ironwood expanded our business into the catalog furniture market. Since then, we have improved and added to our furniture offerings. In a continuing tradition of service and customer satisfaction, we work hard to provide the products you need in either standard or customized sizes.

Stools

Available in fixed and adjustable height models, these stools fit a wide range of users from pre-school to adults. A choice of a hardwood or a flexible molded seat provides options to fit your environment. The durability of the welded 16 gauge steel is where these stools provide the return on your investment.

30x60 DRFT DESK-BN-NO

Graphic Desks

From a concept to completion, these tilt top desks provide a work space to communicate what tomorrow will bring. The 14 position lift adjusts to fit any user and the pencil stop can be raised or lowered. In the down position you have a flat work area that matches up with the fixed top.

Recovery

If it is a trip to the nurse's office or wrapping a knee or elbow with the trainer, our recovery cots and treatment tables are the place for the care you need. Comfort and durability are built in with 4" hospital grade foam, ISO9001 engineered Naugahyde, double sewn seam and a welded frame base.

Industrial Arts

Classroom

Whether you choose the sweptback round leg or a slight bend for eye appeal, these desks provide a unique look to any environment. Choose a metal book box or a more contemporary wire shelf or solid shelf for storage. Providing quality with today's ever shrinking budgets can be accomplished with your choice of Low pressure or High pressure laminate tops.

Cafeteria

When you have a diversity of needs, Ironwood has what it takes in the cafeteria. From microwave stands to shelving for condiments, beverages and utensils we can help keep things organized. At the end of the function don't forget the waste receptacle to aide in the clean up.

Edgings to consider:

Choose for a variety of std edges:

- 3mm T-edges for curved edges and rounded corners.
- 3mm PVC for standard rectangle tops.
- 3mm oak or maple edge
- Iron Edge; a spray-applied polyurethane edge
