TABLES

**ARCHES**

# I R O N W O O D

A simple necessity the table, they are everywhere. The choices are limitless. Ironwood Manufacturing brings the manufacturing choices to you. Let us make the top that will best fit you needs and then choose a base that works for you environment.

## Melamine

Thermal Fused Laminate more commonly known as melamine. Melamine provides a good price point in medium to low wear areas. Melamine is available in our colors.

## HPL

High Pressure Laminate (HPL) provides great wear for high use areas. HPL is available a high range of colors to compliment your room.

## Chemical

Chemical Resistant Laminate is available from most major brands of HPL. This HPL is treated with a polyester based resin to provide the chemical resistance. This provides an economical solution for science labs.

## Welded Frame

When the requirements call for durability and longevity Ironwood's Welded Frame series (WF) tables are the direction to go. Our fully welded frame is available in fixed height and adjustable height. Optional bracing provides a sturdy work center ideal for art rooms, computer labs, libraries and classrooms.

## Glacier Tables

The Glacier Series (GLT) is our newest table and an excellent choice for your next library or classroom. This modern design provides a solid table when the 2½" round legs are bolted to the 1" x 2" unitized skirt. If delivery time is critical, these are stocked in various sizes and available in Amber Ash, Oiled Cherry, Dixie Oak and Folkstone Gray.
